agrotoken

Harnessing the power of blockchain

while participating in a revolution across all industries

Welcome to the future of the Commodities Market

A scenic landscape at sunset. In the foreground, there is a vast vineyard with rows of grapevines. In the middle ground, a small village with several houses and trees is visible. In the background, a hill is covered with a wind farm, with several wind turbines silhouetted against the bright orange and yellow sky. The text "Let's start with the Agribusiness" is overlaid in white, sans-serif font across the center of the image.

Let's start with the Agribusiness

Agro producers work hard all day
and always strive to produce more!

... making hard choices everyday

what & when to produce, dealing with machines, employees, services and supplies, react to climate conditions change

“Gates inside is
their territory”

Gates outside is
troubling!

Financing, selling, controlling margins, reducing market volatility risk and
dealing with inflation, macroeconomic and political turmoil

A collage of wheat stalks, almonds, and US dollar bills. The wheat stalks are golden and appear to be part of a harvest. The almonds are scattered across the scene, some whole and some cracked. The US dollar bills are also scattered, with some showing the number '100'. The background is a warm, golden-brown color, suggesting a field or a barn.

Leveraged on a strong producer's insight

“my production is my currency”

We make gates-outside matters
SIMPLER, more EFFICIENT and SAFER

We improve
liquidity

We speed Up
transactions

We reduce
exposure
to risk

We are **agrotoken** the first commodities-tokenization global platform

We strengthen producers currency by creating
stablecoins backed by commodities

that can be efficiently used for transactions, financing, investment and
risk management

Our value proposition

By creating
stablecoins

... and connecting
them to all fin
pipelines

... we will satisfy all
financial needs in
superior ways!

We create FUNGIBLE tokens

~~NFT~~

~~Moneda
gobernanza~~

~~Moneda sin
respaldo~~

We create STABLECOINS

We create FUNGIBLE tokens

1 tn of Grain = 1 Agrotoken

Soy

Corn

Wheat

We create STABLECOINS

How do we create tokens ?

Proof of
Existence

+

Proof of
Liquidity

+

Collection
Rights

documents that the
collateral exists

documents how it
will be made liquid

transfers collection
rights to Agrotoken

Proof of Grain Reserve → Smart Contract

All exchange or
payment methods

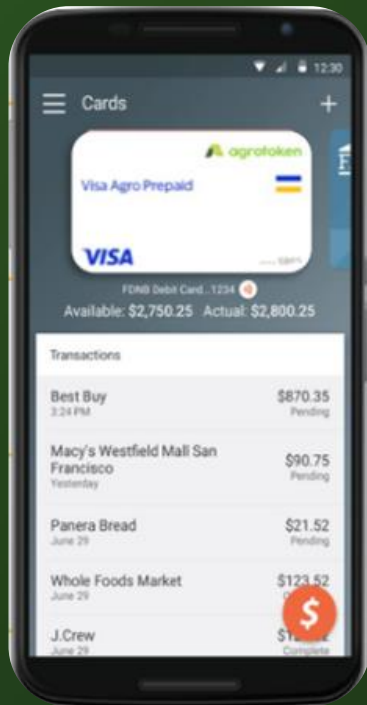

We make tokens exchangeable

All exchange or
payment methods

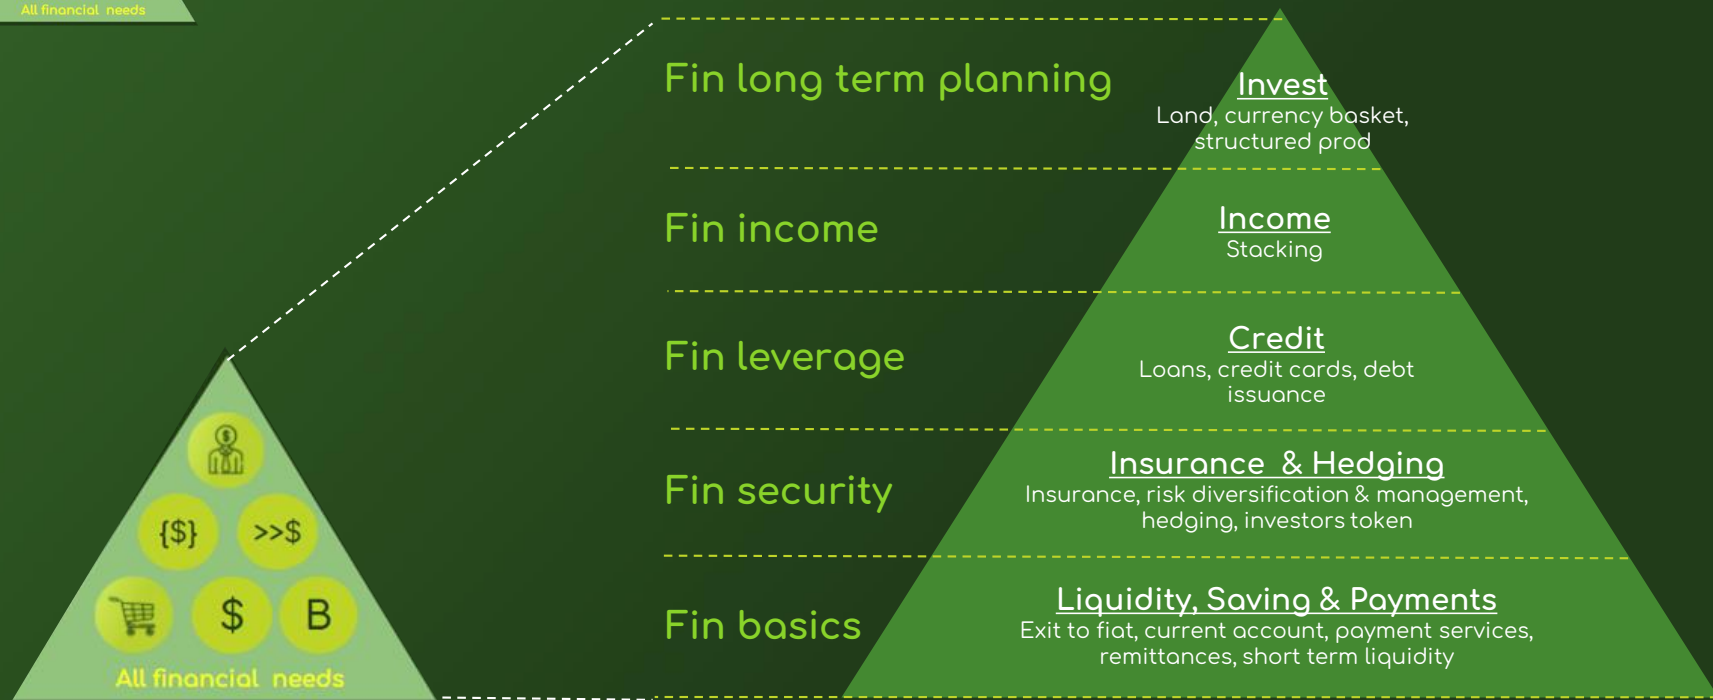

Our new partnership with Visa ...

will make paying with commodities mainstream

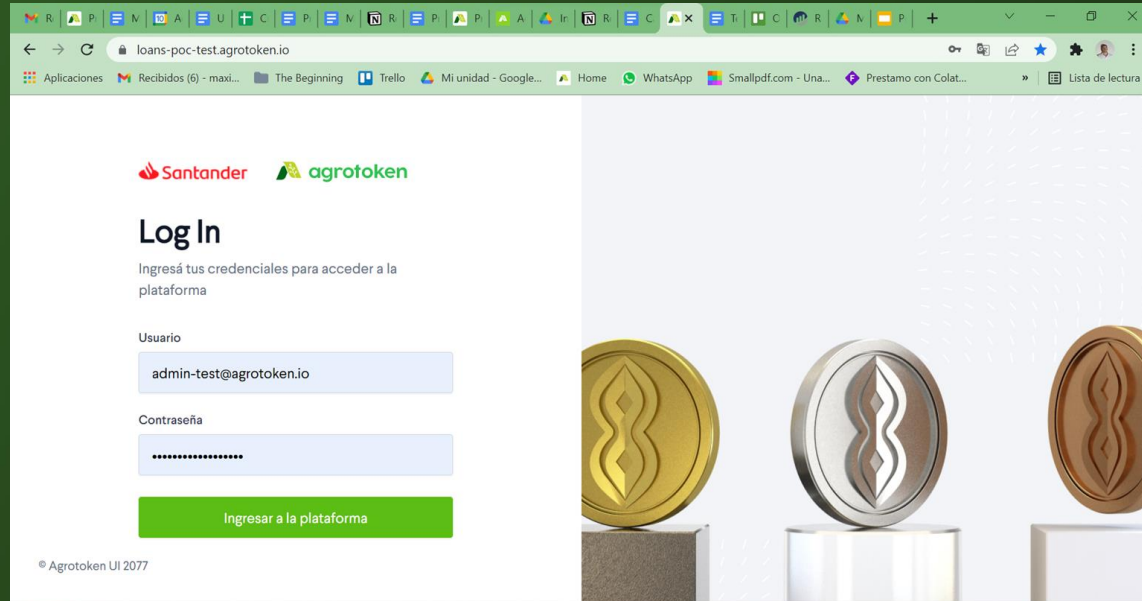

We aim to satisfy all financial needs

Enabled by blockchain & smart contracts
we create new, unique and improved financial products

Our recent innovation in partnership with Banco Santander ... tokens-collateralized-loans

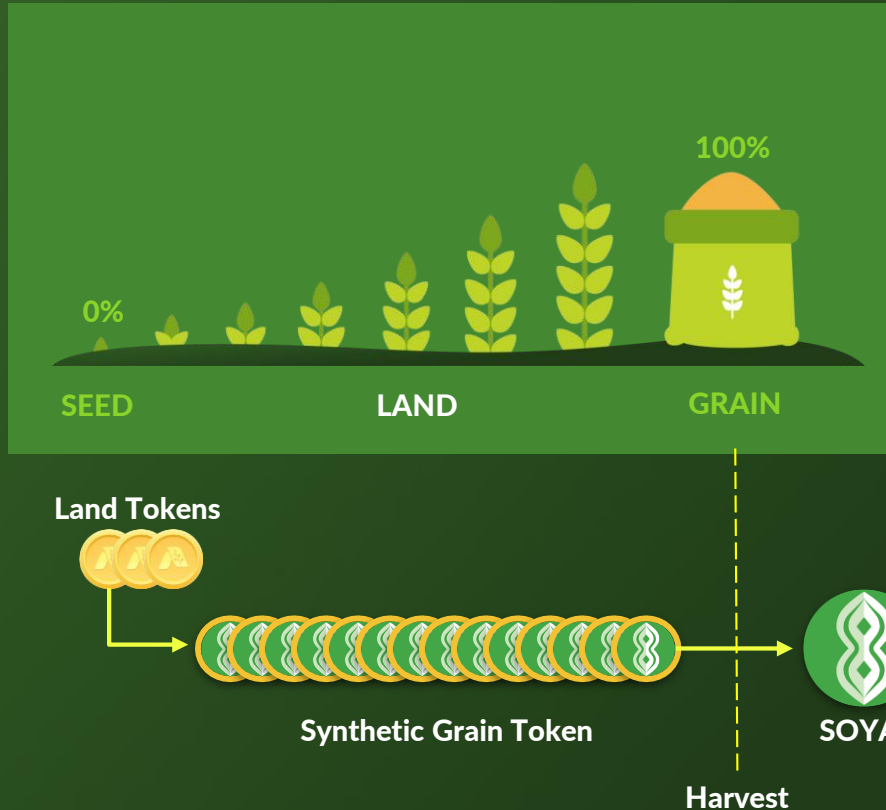

proves Agrotoken as a bridge between CeFi and DeFi.

We are making very rapid progress...

- In Jan 2020 we launched the first global tokenization platform for Agro-Commodities.
- We launched the first 4 agrotokens (SOYA, CORA, WHEA & SOYB)
- We built a Tokens-Payments-Network that allows for transactions to be paid with agrotokens.
- We successfully executed our market test in Argentina have now more than 70,000 tons of grain tokenized and transactions for more than USD 120MM. We are already tokenizing in Brazil. By July we will have tokenized 150.000 tons combined.
- We are already over 70 employees distributed in our offices in Argentina, Uruguay and Brazil
- We raised USD11MM+ in capital, grants and advanced revenue in the past six months.
- We partnered with Santander Bank to launch the world's first tokens collateralized loan.
- We closed a global agreement with Visa International to connect Agrotoken to their entire ecosystem.

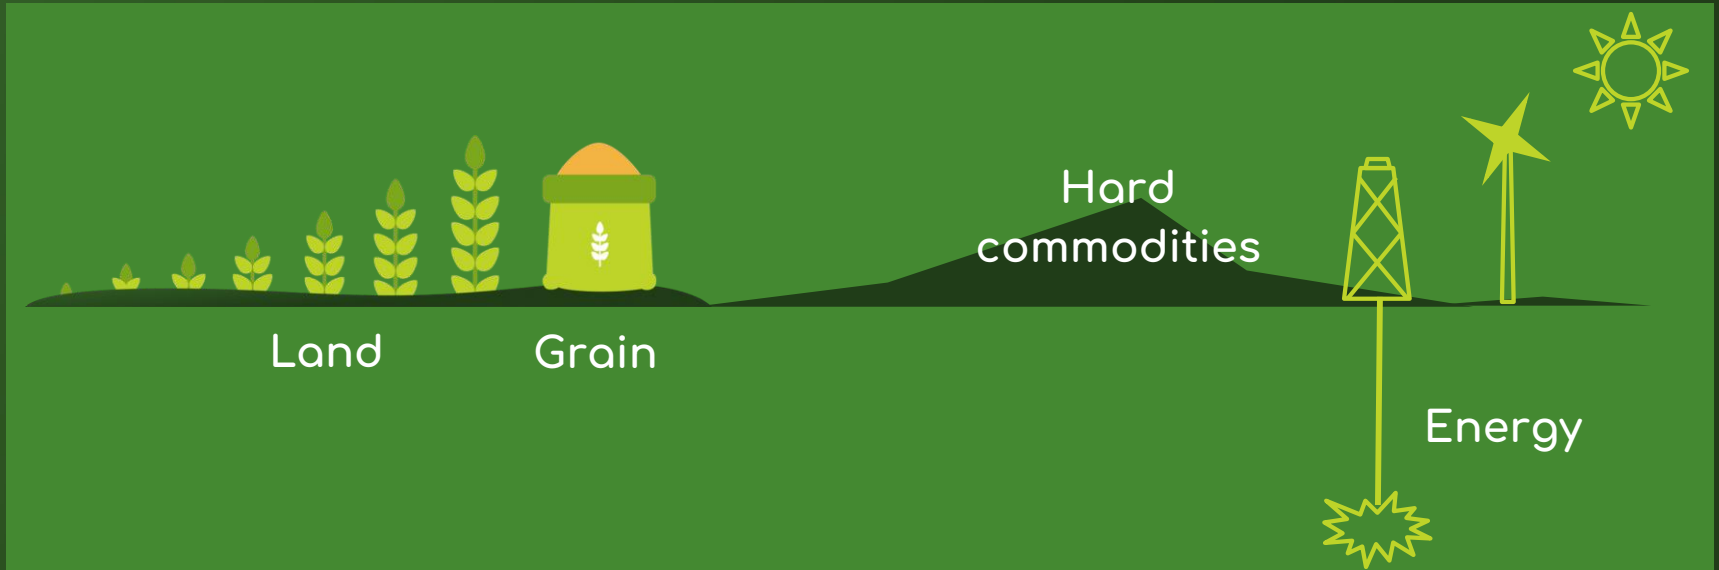

We are now tokenizing land too ...

that will enable new
land ownership model
and
financial yield
in Agrotokens

further strengthening the ecosystem.

... further expansion of our expertise ...

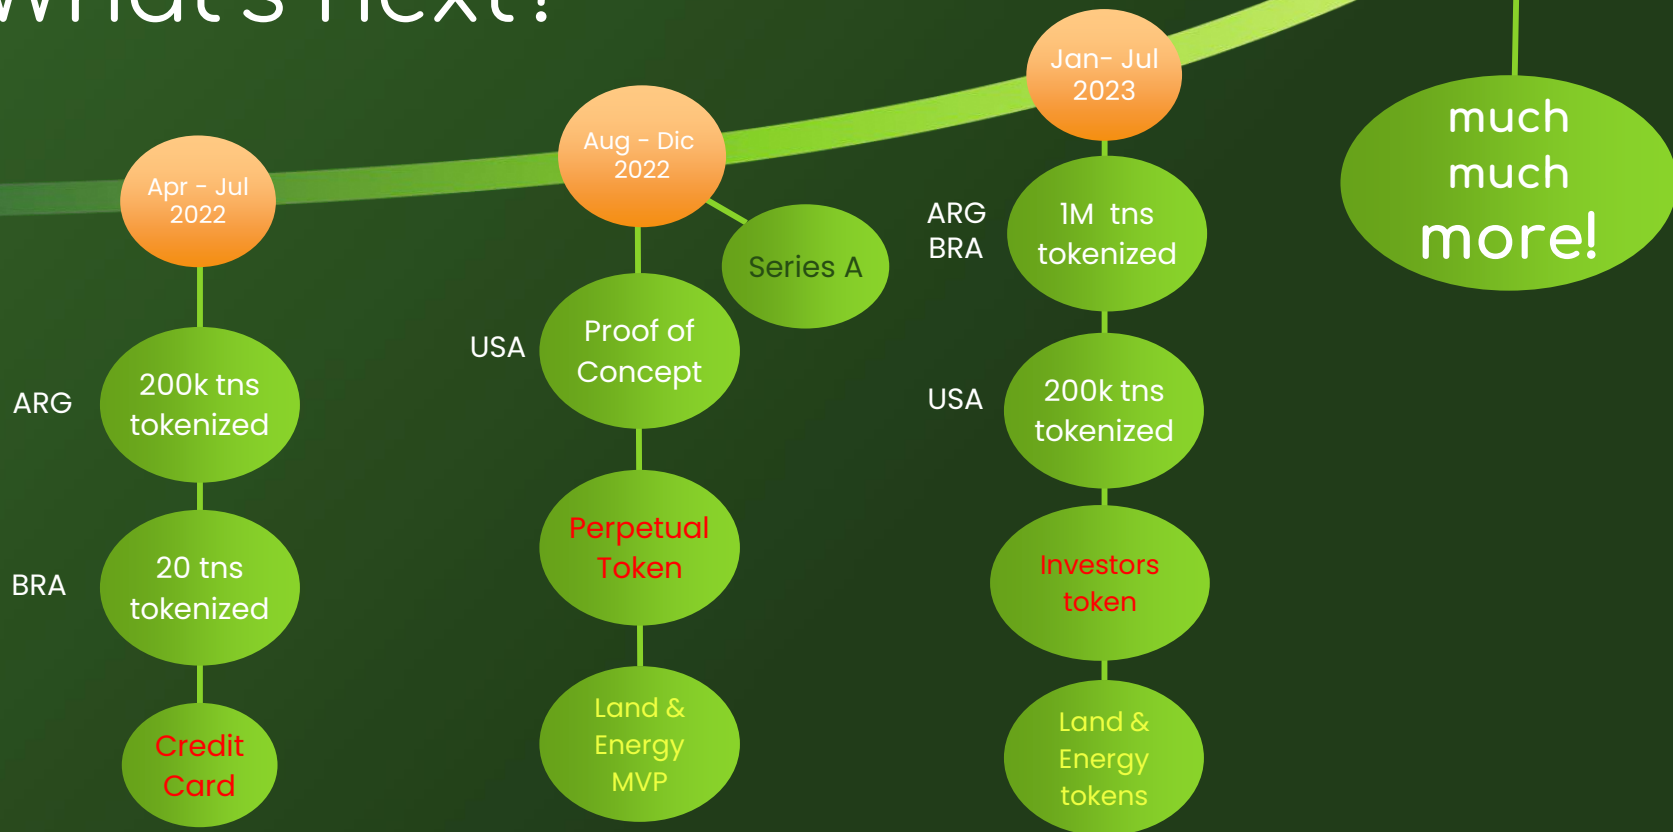

will allow us to create **stablecoins** backed by
the most valuable resources on earth
(scarce & in high demand)

to unlock a
u\$35 trillion +
addressable market
in Commodities

We make money by charging
small fees in high volume
transactions

- token use
- payments
- transfers
- loans
- hedging
- and more

What's next?

moving quickly along 4 growth axis : geographies, **product**, commodities & users depth

A Great Team for the *Commodities Revolution*

Eduardo Novillo Astrada (h)
Co-Founder & CEO
20+ years in Entrepreneurship

Ariel Ernesto Scaliter
Co-Founder & CTO
20+ years in High Tech

Patricio Greco
Chief Operating Officer
20+ years of CEO

Santiago del Carril
Chief Comm Officer
20+ years in Agro

Juan Houlin
Chief Pricing Officer
20+ years in Trading

Fernanda Pascual
Head of Ops AR
20+ years in Agro

Anderson Necaxe
Head of Brazil
20+ years in Agro

Guillermo Muiña
Head of Global
Marketing
10+ years in Digital

Luciano Verardo
Chief Financial Officer
10+ years in Finance

Javier Laurenz
Chief Risk Officer
20+ years in Risk Mgn

A Great Advisory Board *for the Comm Revolution*

Mariano Bosch
CEO & Cofounder
Adecoagro

Ivo Sarjanovic
Former VP Cargill

Silvio Micali
Founder Algorand

Our Partners

Thank you!
